

Security in Industrial Environments

This special session tries to bring together researchers, engineers, developers and practitioners from academia and industry working in all interdisciplinary areas of Soft Computing and Computer Security to share the experience, and exchange and cross-fertilize ideas.

This special session will provide an interesting opportunity to present and discuss the latest theoretical advances and real-world applications of these two fields to the industrial domain.

Organization & Contacts

This Special Session on Security in Industrial Environments is organized by:

Emilio Corchado
Departamento de Informática y Automática
University of Salamanca (Spain)
escorchado@ubu.es

Álvaro Herrero
GICAP Research Group
Civil Engineering Department
University of Burgos (Spain)
ahcosio@ubu.es

Please access to the Special Session sub-website to get more information:
